Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 6 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133).
- Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

Status

- 1) ☐ Responsive to communication(s) filed on 15 April 2002.
- 2a) ☒ This action is **FINAL**. 2b) ☒ This action is non-final.
- 3) ☐ Since this application is in condition for allowance except for formal matters, prosecution as to the merits is closed in accordance with the practice under *Ex parte Quayle*, 1935 C.D. 11, 453 O.G. 213.

DETAILED ACTION

Faxing of Responses to Office Actions

In order to reduce pendency and avoid potential delays, TC 3700 is encouraging FAXing of responses to Office Actions directly into the Group at (703)872-9302 (Official) and (703)872-9303 (for After Finals). This practice may be used for filing papers which require a fee by applicants who authorize charges to a PTO deposit account. Please identify the examiner and art unit at the top of your cover sheet. Papers submitted via FAX into TC 3700 will be promptly forwarded to the examiner.

1. Claims 1, 4-6 and 9 have been amended for further examination. Claims 17-20 have been canceled. Claim 21 has been added for examination.

Claim Rejections - 35 USC § 102

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless -

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

2. Claims 1-7 are finally rejected under 35 U.S.C. 102(b) as being anticipated by Main (5,618,064).

Main discloses in Fig. 1 and 2, a mailing assembly comprising: a backing sheet (200) forms a transparent compartment to be adhered to a mailpiece (Col. 2, lines 52-59) having an opening (214) wherein the form is capable of entering); a mail form (100) with no adhesive backing (Col. 2, lines 60-67 and Col. 3, lines 1-3) is removably attached to the backing sheet and further wherein the mailing sheet is variably printed with information (104-114); wherein the form is inserted into the compartment to effect delivery of the mailpiece (Col. 3, lines 11-20).

Claim Rejections - 35 USC § 103

The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

3. Claim 8-16 and 21 are finally rejected under 35 U.S.C. 103(a) as being unpatentable over Main in view of Coats et al (5,624,069).

Main discloses in Fig. 1 and 2, a mailing assembly comprising all the elements as claimed in Claim 1, and as set forth above.

However, Main does not disclose: a third auxiliary label on the backing sheet; wherein the backing sheet forms an envelope having a compartment, and wherein the mailing form is subdivided into a plurality of sub-parts having tear lines, wherein one of the sub-parts corresponds to a customs notice;

Coats et al discloses in Fig. 3, a mailing assembly comprising a backing sheet (11) forming an envelope (A and B) formed via the adhesive layer and adhered to a mailing form (37) having sub-parts separated by a tear line (C), wherein the sub-parts are capable of adhering to a mailpiece; and a third layer (50) having an auxiliary label.

Art Unit: 3722

Therefore, it would have been obvious to one having ordinary skill in the art at the time the invention was made to modify Mains's mailing assembly and replace the compartment with an envelope forming a compartment as taught by Coats et al for the purpose of providing a more secured compartment structure.

In regards to **Claim 9**, it would have been obvious to one having ordinary skill in the art at the time the invention was made to divide the form into many sub-parts, since it has been held that constructing a formerly integral structure in various elements involves only routine skill in the art. *Nerwin v. Erlichman*, 168 USPQ 177, 179.

In regards to **Claim 13**, it would have been obvious to one having ordinary skill in the art at the time the invention was made to place any desired indicia such as a custom notice indicia on the sub-parts, since it would only depend on the intended use of the assembly and the desired information to be displayed. Further, it has been held that when the claimed printed matter is not functionally related to the substrate it will not distinguish the invention from the prior art in terms of patentability. *In re Gulack* 217 USPQ 401, (CAFC 1983). Also, in the present case, there appears to be no new or unobvious structural relationship between the printed matter and the substrate.

Response to Arguments

4. Applicant's arguments with respect to claims 1-16 and 21 have been considered but are moot in view of the new ground(s) of rejection.

Conclusion

5. Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.
